

The background image shows a vast landscape under a sky transitioning from deep blue at the top to a warm orange and yellow near the horizon. In the foreground, a dark, silhouetted hill rises, featuring three large wind turbines with three blades each. A winding road or path leads up the hill towards the turbines. In the distance, a body of water reflects the low sun, and more hills are visible on the horizon. The overall mood is serene and hopeful, emphasizing clean energy and sustainable development.

The future is green, smart, and connected – let's build it together.

Daniela Mihova, CEO  
**Smart Tech Energy Ltd**  
**BULGARIA**

- \* Bulgaria-based company focused on renewable energy and sustainable mobility
- \* Entrepreneur with experience in solar park development and e-mobility solutions
- \* Vision: Connecting clean energy with real-world applications in mobility & smart cities

An aerial photograph of a large solar farm, showing rows of solar panels stretching across a landscape. A blue grid pattern is overlaid on the image, creating a sense of structure and technology. The text is placed over the upper and lower portions of the image.

## Company & Activities

- **Founded in 2022 – developing solar park projects from land acquisition to investor-ready assets**
- **Integrating e-mobility infrastructure: charging stations, smart energy storage, and grid optimization**
- **Exploring innovative technologies: battery storage, AI-driven energy solutions, and smart city integration**
- **Building partnerships across Europe for clean energy and mobility transformation**
- **Vision: Connecting clean energy with real-world applications in mobility & smart cities**

A close-up photograph of a person's hand resting on a solar panel. The sun is low on the horizon, creating a warm, golden glow that reflects off the surface of the panel. The background is a soft, out-of-focus sky.

## Future & Collaboration

- **Why we are here:**
- **Seeking technology partners for renewable energy and smart mobility solutions**
- **Looking for investors to scale solar parks and integrated energy projects**
- **Open to collaboration with R&D centers and government institutions for sustainable urban development**
- **Aim: Create scalable, innovative, and profitable clean energy ecosystems**
