Prof. Dr. Felix Arion

General Manager
AgroTransilvania Cluster

About us

**CONSILIUL
JUDEȚEAN
CLUJ**

The vision is to become the main RDI technology transfer center in the agro-industrial field at national level.

Our mission is to promote collaboration and cooperation between business entities in the agro-industrial sector, academia and research institutions.

The main objective is to become an active and viable RDI partner in the agro-industrial field for economic actors at national level, as well as a model of good practices of international collaboration.

The objective is to give a boost local products in the agro-industrial field.
