

LEX IN DRESDEN

October 29– 30, 2025 | Dresden, Germany

*Discover new perspectives on **Europe's industrial transformation**.*

The IDEALIST project organizes the fourth Learning Expedition in Dresden, giving participants direct access to the **industrial** and **technological** landscape of Saxony. Over two days, SMEs, clusters, and innovation players will experience an intensive program focused on **chemical industries, railway technologies, and metallic raw materials**.

Highlights of the program:

- Expert talks and discussions on **resource circularity, rail innovation, and carbon-neutral value chains**;
- Start-up pitches showcasing breakthrough ideas;
- Structured **B2B networking** with peers from across Europe;
- **On-site visit to Wacker Chemie AG** (Nünchritz plant), a key chemical industry hub in Saxony.

 **Who should join:** SMEs engaged in innovation, technology clusters, research bodies, and organizations active in industrial transition.

 **Support available:** reimbursement of travel expenses up to **€500**, reserved for SME representatives (voucher distributed via local cluster partners).
